

Open Water the first month

England now has the largest competitive water market **in the world**

This is the **biggest change** the sector has seen since it was privatised in 1989

AROUND

11,000

supply points opted to switch before the market even opened

AROUND

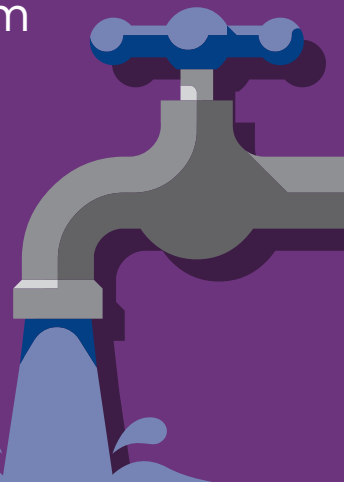

24%

of those supply points chose to move to **SES Business Water**

There are currently **20 water retailers** to choose from

There have already been two **self-supply** applications, from Whitbread and Greene King

OVER 19,000

supply points have switched supplier so far

SES Business Water has seen more growth than any other supplier so far

we've taken on **over 3000** new supply points.

Businesses with the highest consumption (>13,700 l/d) have been the most engaged in the market
